

MA10103: Foundation Mathematics I

FIRST CLASS TEST

Venue: 8West 2.1.

Time: 11.15 - 12.05.

Date: Thursday 8th November.

It is worth 12.5 % of the final mark for this course.

This class test will cover material from the first five chapters of the course and the lecture on Monday 29th October, i.e., everything before calculations involving sine, cosine etc. (but it includes their definition).

You need to bring pens (or pencil if you prefer, provided it is legible). We will give you paper. You will have to leave your bags on floor or at the front of the room.

You are not allowed to use a calculator and you will not need one.

The questions are short and in the style of the questions in section A of the end of semester exam. If you want to see copies of old exam papers see the *Library and Learning Centre Exam Papers Database* at <http://www.bath.ac.uk/library/exampapers/> (will be linked from the course webpage/Moodle course page).

There will be no drop-in session at 10.15 on 10th November!
